

BACK TO OUR FUTURE

HOW TO MAKE PAPER-SPINNER

You will need:

cardboard or printer paper in different colors
toothpick
glue
scissors

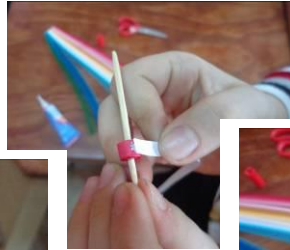

Instructions:

Step 1

Cut cardboard or printer paper in different colors into strips.

Step 2

Start winding them carefully around a toothpick, adding a little glue from time to time.

Step 3

When you're done, cover the sides with glue so the rolled paper will not rotate around the axis.

The spinner will be ready to play with as soon as the glue has dried.

This project has been funded with support from the European Commission.
